Changed Paradigm

Criminal

- Wants to Steal Money, Jewelry, Items of Value (Car)
- Willing to Threaten, Rarely Willing to Kill
- Does not want to be Caught, Hurt, or Killed
- 80% Flee if you Draw a Gun
- Retreat for you is a Viable Option

Concealed Carry

- .380+ Sufficient
- Non-Lethal Options Viable
**Terrorist**

- **Wants to Kill You**
- Does not Expect to Survive
- Armed with Multiple Guns
  - Bombs & Suicide Vests
- May have Protective Armor
- 3 Kills per Minute

**Concealed Carry**

- Greater Distance – 20+ yds
- Stopping Power – 9mm - .45
  - Dead Man’s 10 Seconds
  - 133 Rounds
- CNS vs COM Shots
Soft Target

"a person or thing that is relatively unprotected or vulnerable, especially to military or terrorist attack."

aka: The Villages!

Terrorist groups overwhelmingly choose “soft” targets

- Generate terror
- Create chaos
- Intimidate the Public
- Gain publicity for cause
Armed Attack Indicators

- Unseasonably heavy clothing, long coat or outer garment
- Scanning – constantly looking around, side-to-side, appears to be looking for something
- Target glancing – obvious preoccupation
- Clenching – obvious tension in jaw, fists, overall body posture
- Eye blinks – either very fast or very slow – normal = 20/min – “Thousand Yard Stare”
Suicide Bomber Detection

- Unseasonably heavy clothing
- Unusual gait, robotic walk
- Tunnel vision, target fixation, no eye contact
- Sweating, nervous movements
- Appearance of being drugged, enlarged pupils, erratic
- Bags or backpacks, holding them tightly or gingerly
Suicide Bomber Detection

- A fresh shave, lighter skin tone on lower face
- Hand always in pocket or holding something
- Evasive movements, avoiding cameras or security personnel
- Mid-eastern (Arab) male, 18 – 35
- Women considered equals as (and only as) suicide bombers
Mental Awareness

Levels of Awareness

1. Reading, Sleeping, generally oblivious to events around you
2. Aware of events around you, exits, paths of escape, unusual activity
3. Sense a problem, sight, sound, ready for action
4. Crisis at hand, execute personal defense plan
Normalcy Bias

The phenomenon of disbelieving one’s situation when faced with grave and imminent danger or catastrophe.

- Can cause you to freeze
- Herd mentality
- Tendency to discount visual and auditory input

\textbf{WILL GET YOU KILLED IN A TERRORIST ATTACK}

<th><strong>Options</strong></th>

<tbody>
<tr>
<td>• Popping Noises</td>
<td><strong>Must be Immediate!</strong></td>
</tr>
<tr>
<td>• Individual(s) that fits the Profile</td>
<td> Run</td>

<tr>
<td>• Disturbance in the Area</td>
<td> Hide</td>
</tr>
<tr>
<td>– Bomb</td>
<td> Fight</td>
</tr>
<tr>
<td>– People running</td>
<td></td>
</tr>
</tbody>
</table>
Run

• **Running is the FIRST line of action**
  
  • Leave premises or area IMMEDIATELY via your preconceived route
    – Move away from the gunfire or disturbance
  
  • Get as far away as possible
  
  • Be wary of multiple shooters to avoid
Keep in Mind:

• Most people won’t want to leave
  – Cowed in Fear
  – Let Normalcy Bias take over
  – Think hiding is 1st recourse

• Try to convince to leave (briefly) then leave them

Do Not:

• Hesitate to gather your belongings – leave it!
• Stop to assist wounded

Do:

• Keep others from moving towards the danger area
• Keep hands visible for LEOs
• Run at Angle to shooter(s)
• Take cover if available
• Running may not be an option…

• **Hiding is your SECOND line of action**

• Find & Hide in a secure location that offers cover or concealment

• In a room, lock, barricade the door
  – Anything heavy
  – Turnout lights
  – Turn off phone ringer

**Cover:**
Bullets cannot penetrate

**Concealment:**
Hides you from the shooter
• Call 911 – if you cannot speak, leave line open so 911 can hear what’s going on

• DO NOT open door unless absolutely necessary or you can confirm it’s the authorities

• **BE AWARE:**
  – Shooters will often knock on the door or yell for help to get you to reveal yourself

• If the opportunity arises, move to even more secure location or out of the area completely
When running or hiding have failed, it’s time to fight for your life with all of the violence and aggressiveness in your being!

- **Fighting is the LAST line of action**
- Get others to help you – the shooter can only aim in one direction at a time – get control of the gun
- Use anything at hand – attack quickly and devastatingly
Fight

• Will you get shot? Possibly – if you are at this point you are likely to die anyhow!

• Group actions by the potential victims

• If you are armed, tactics to employ in returning fire

• If you are not armed, there are several principles to keep in mind:
Fight

Know Your Advantages

• The gunman does not expect a counter attack by his intended victims
• Attack will disrupt his plan
• May cause a “uhhh…” moment
• Can attack from multiple directions

Be Aggressive & Violent

• Victory will go to the swift and relentless
• Use lethal force
• Don’t stop until you or the attacker is dead
• It’s called Survival!!
Control the Weapon

- When the weapon is under control, the killing will stop
- Coordinate your attack
  - Have 1-2 go for the gun
  - Have 1-2 go for the attacker
- Grab the barrel
  - Change direction of aim
  - Stop the slide from cycling

Improvise Weapons

- Use anything & Everything
  - Chairs
  - Fire Extinguishers
  - Belts
  - Coffee Mugs
  - Pens
- Throw stuff
- Work as a Team!
When the Police / Swat Arrives

• The actual shooting may be over

**Goal #1 = take down the shooter**
  – Will ignore wounded!
  – **DO NOT BE CAUGHT WITH A GUN IN YOUR HAND**

• EMTs will not enter until site is secure
• Keep hands visible at all times – follow directions
Conclusions

“The Barbarians are at the Gate!”

• Need to change our thinking
• Need to change our preparation
• Need to be Alert

What to do now:

• Get a CWFL & tactical trng
• Carry Routinely
